Note that preliminary search filed on January 12, 2001 was not screened where applicant claimed priority for US application No. 09/413,385 in the first sentence of the specification and the examiner added US Patent No. for US application No. 09/413,385. The rejections were made after consulting with 1600 Biotech Specialist Brian Stanton and SPT 637 Gary Benson. Primary Examiner, Ethana L. Sauer suggests that the examiner do not make 102/103 rejection.
